 ILLUMINATION SYSTEMS

**THE HIBRITE STREETLIGHT ADVANTAGE**

**Reduced Energy and Maintenance Costs  
 Plus 8X Longer Life**

Lower wattage equals big energy savings. In addition, LED Power's HiBrite Series streetlights are rated at a minimum of 50,000 hours - 8 times more than systems using HID or HPS lamps. With LED Power, the added benefits include zero warm-up time and no reduction to lamp life from being turned on and off in cold environments. With the LED Power HiBrite Series streetlights, replacement is extended for up to 6 years or more with continuous, 24-hour hassle-free operation. Our superior performance and reliability is backed by our 5-year limited warranty.

- Super Bright LED lamps provide over 50,000 hours life
- Weatherproof, fully sealed, completely waterproof (>IP65 Standard)
- Huge energy savings compared to HID and HPS
- Aerospace heat dissipation device uses patented Loop Heat Pipe, fan-less
- Unique light weight construction, does not require heat sink fins
- Excellent rebate programs available
- Excellent return on investment

**Go Green — Reduce  
 Environmental Impact**

Our unique HiBrite Series lamp design has no UV or infrared, and doesn't contain any mercury, making handling and disposal far more eco-friendly. LED illuminations systems use far less energy further reducing environmental impact on our planet.
